Purpose and functionality

“Orders exporter” is a module developed by 4webs, with this module you’ll be able to export the store orders using different parameters.

Also you can choose different criteria when exporting to limit the results, you can reorder the different data columns in the backoffice to tune the output file, also you can turn on or off the totals footer.

This version is compatible with Prestashop 1.6 and 1.7, the module has been rewritten to enforce the 1.7 compatibility.

Technical description and requirements

VERSION: 1.2.0

PRESTASHOP COMPATIBILITY: 1.6.0.6 – 1.7.6.1

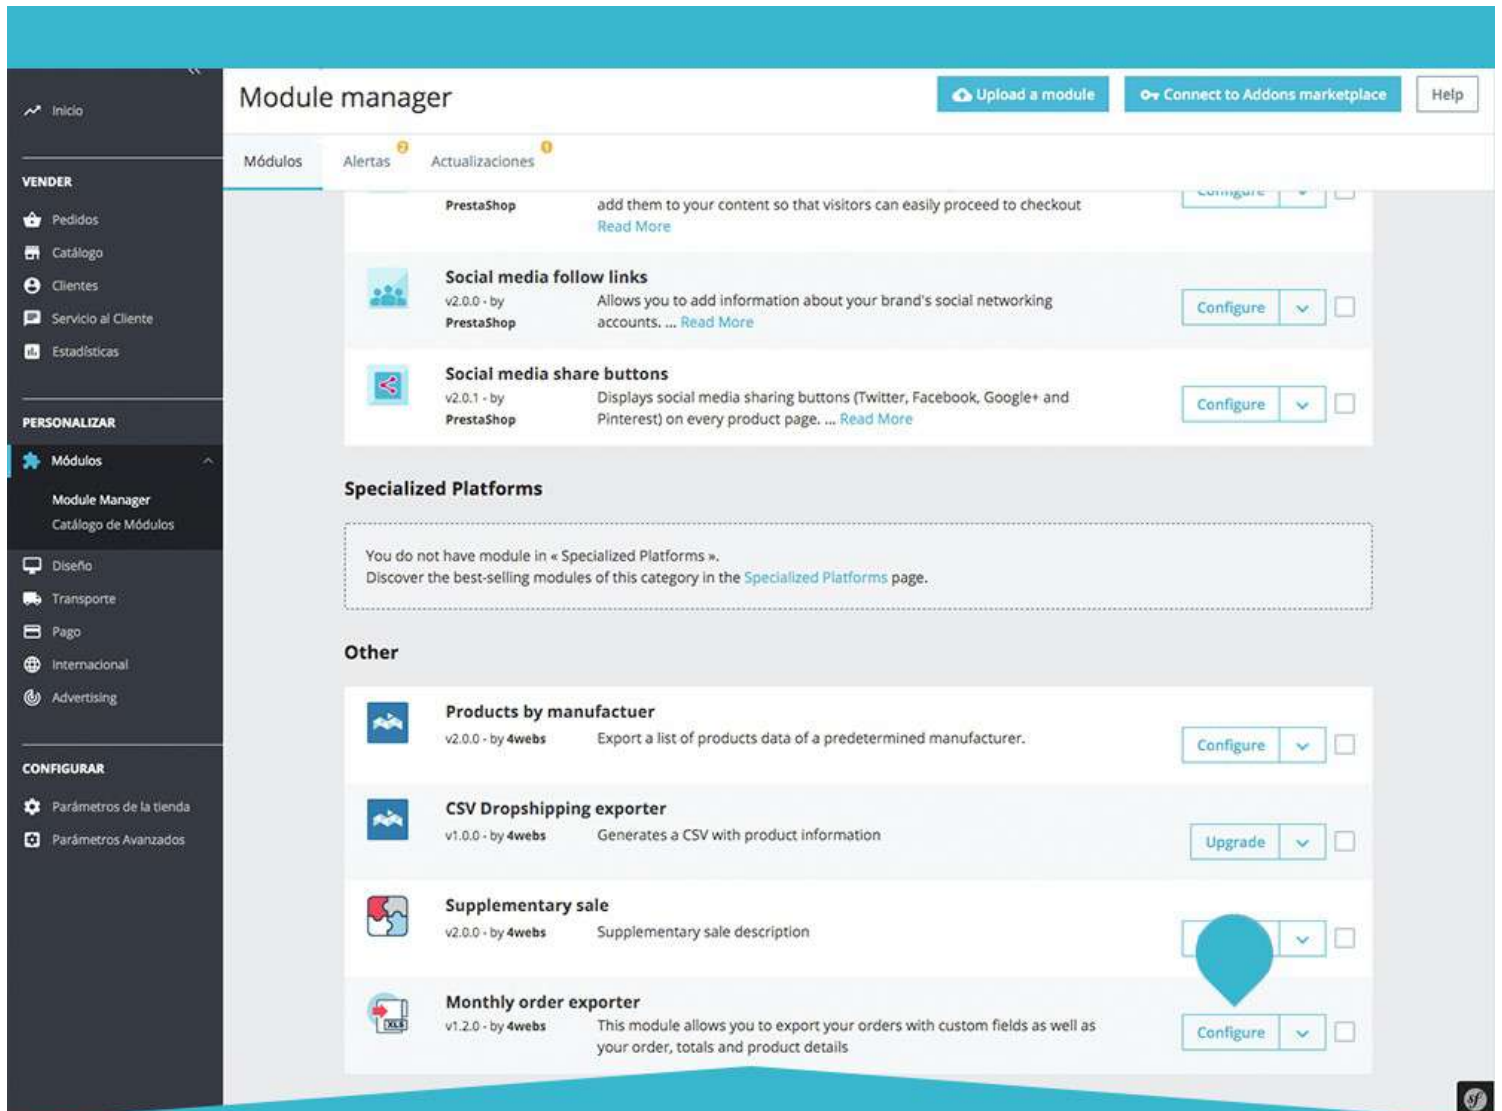

Installation and configuration

In first place, you need to upload the module zip to the server, after that you’ll find it on the modules searcher and click on “Install” button. Once it’s installed you can access faster through the orders menu in the sidebar.

In the next pages, you can see various of screenshots that will explain how to use the module and generate the output files.

Use

when it's installed, search for "Monthly order exporter" in the module list and then click on the "Configure" button as you can see in the next picture.

You can manage all the module's features from their configuration page

In the module's configuration screen you can tune the different export settings and criteria.

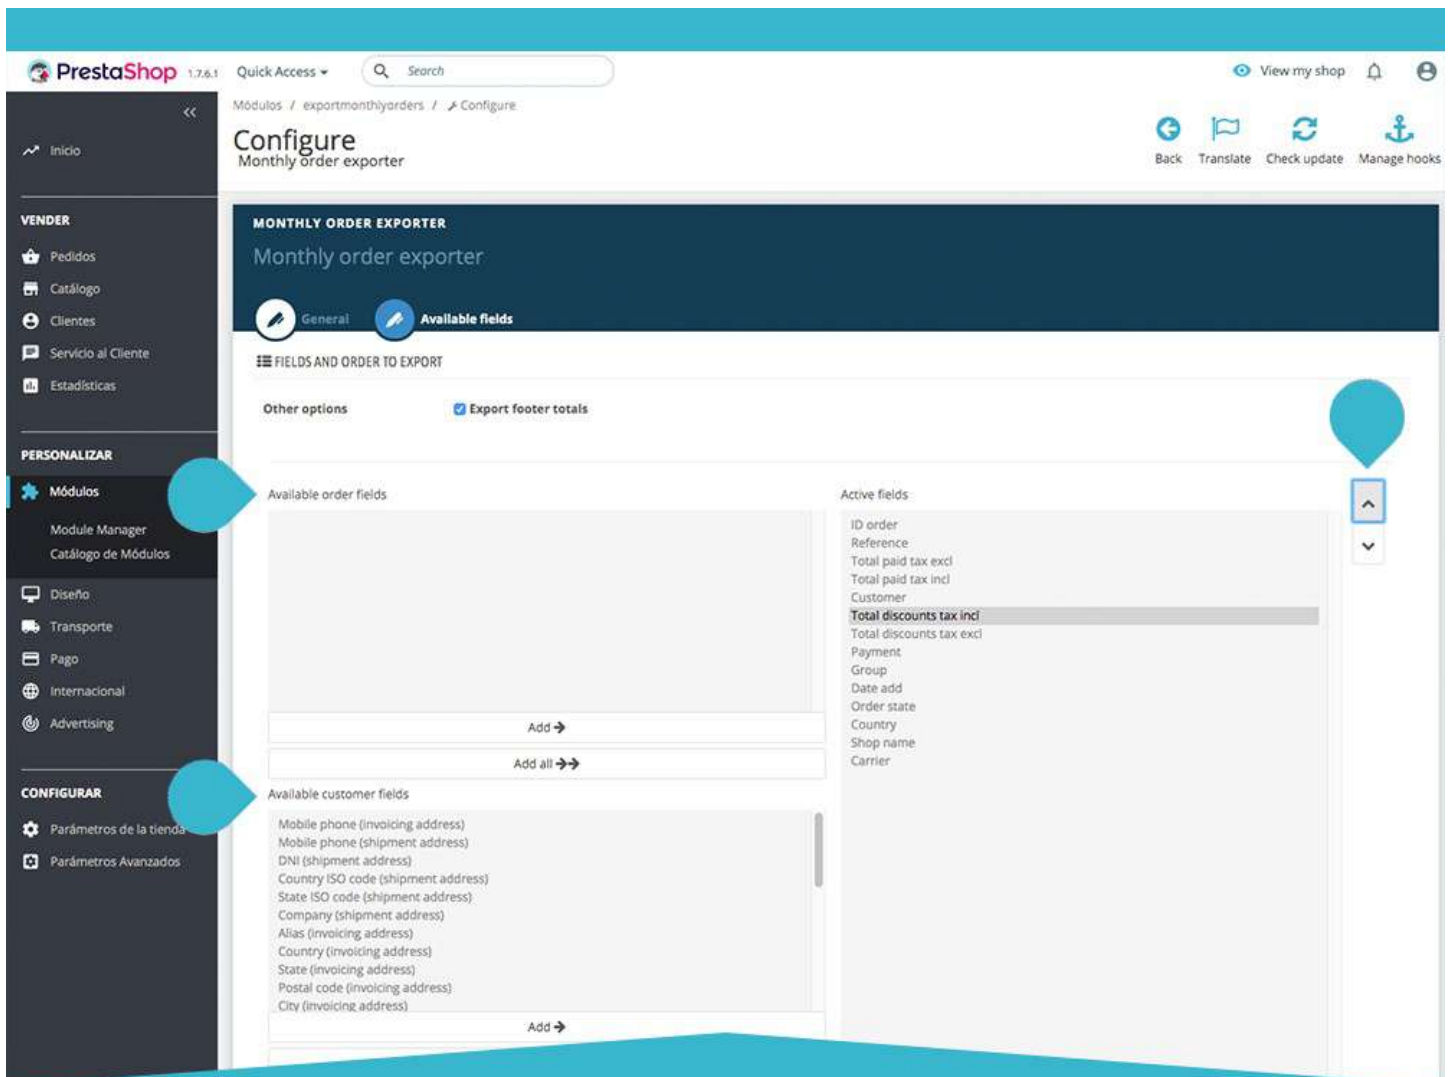

The screenshot displays the PrestaShop configuration interface for the 'Monthly order exporter' module. The top navigation bar includes the PrestaShop logo, version 1.7.6.1, a search bar, and utility links like 'View my shop'. The left sidebar is divided into sections: 'VENDER' (Inicio, Pedidos, Catálogo, Clientes, Servicio al Cliente, Estadísticas), 'PERSONALIZAR' (Módulos, Module Manager, Catálogo de Módulos, Diseño, Transporte, Pago, Internacional, Advertising), and 'CONFIGURAR' (Parámetros de la tienda, Parámetros Avanzados). The main configuration area is titled 'Configure Monthly order exporter' and features tabs for 'General' and 'Available fields'. Under the 'General' tab, there are three main settings: 'Date from' (2019-11-01), 'Date to' (2019-11-30), and 'File format' (XLSX). An 'Export' button is visible on the right. Below these settings is a 'Customer Group' section with a table:

| Customer Group | |
|----------------|-------------------------------------|
| Customer Group | <input type="checkbox"/> |
| Visitante | <input checked="" type="checkbox"/> |
| Invitado | <input checked="" type="checkbox"/> |
| Cliente | <input checked="" type="checkbox"/> |

This module allows you to export the orders using different filters: Customer groups, Date, Order status, Payment methods, Carriers and Stores

1. Date interval
2. File format
3. Customer groups
4. Payment methods
5. Carriers
6. Stores

If you click on the “Available fields” tab you’ll go to the fields order settings, you’ll be able to modify what fields you want to export and their order, also you can enable or disable the totals footer.

The module allows to choose which fields will be exported and their order. Also you can choose to show the footer totals

The available fields are divided into three different groups to make easier their management:

1. Order fields available
2. Customer fields available
3. Product fields available

To be able to use the module faster and easier a direct link have been placed under the “Orders” submenu in the left sidebar.

The screenshot displays the PrestaShop 1.7.6.1 dashboard. On the left sidebar, under the 'VENDER' (SELL) section, the 'Pedidos' (Orders) link is highlighted with a blue callout bubble. The main dashboard area features a 'DASHBOARD' section with a table of key metrics: Sales (€0.00 Tax excl.), Orders (0), Cart Value (€0.00 Tax excl.), Visits (3), Conversion Rate (0%), and Net Profit (€0.00 Tax excl.). Below this is a line chart for Sales. The 'ACTIVITY OVERVIEW' section shows 1 Online Visitor in the last 30 minutes and 0 Active Shopping Carts in the last 30 minutes. The 'FORECAST' section shows a line chart for 2019 with metrics for Traffic, Conversion, Average Cart Value, and Sales. The right sidebar contains 'PRESTASHOP NEWS' and 'PRESTASHOP UPDATES'.

Also you can quick access to the order exporter from the sidebar, under the “Orders” item

Just at the bottom of this text you can see an output file example in xls mode
