Purpose and functionality

“Google Translate” is a module developed by 4webs with the aim of translating your online store in a matter of seconds.

When you activate this module, you will integrate in your store a translation block connected to Google Translate, which will automatically translate text content when a client selects the desired language.

Its configuration is fast and simple, just select the languages you want to be available to your customers. The initial language in which the page will be loaded will be detected based on the ISO and the browser.

Technical description and requirements

VERSION: 1.2.1

COMPATIBILITY: v1.4.0.17 - v1.7

Installation and configuration

First of all, you need to upload the file to the server module. Later, you can find it in your browser module and click on the option "Install".

Next, are shown different screenshots that graphically explain the simple setup process of "Google Translate". Once installed, locate the module at your Prestashop list and access to your choices via the "Configure" button showed in the image below.

The screenshot displays the 'Manage installed modules' interface in Prestashop. At the top, there are buttons for 'UPLOAD A MODULE' and 'CONNECT TO ADDONS MARKETPLACE'. The main content area is divided into two sections: '1 installed modules' and '34 built-in modules'. The 'Google Translate' module is the only one in the 'Installed modules' section, with a 'CONFIGURE' button. The '34 built-in modules' section lists various modules with their descriptions and actions. The 'Google Translate' module is highlighted with a blue arrow pointing to its 'CONFIGURE' button.

Module Name	Version	Developer	Description	Action
Google Translate	v1.2.1	www.4webs.es	Add a block automatic translation by Google Translate	CONFIGURE
34 built-in modules				
Browsers and operating systems	v2.0.0	PrestaShop	Adds a tab containing graphs about web browser and operating system usage to the Stats dashboard. Read More	DISABLE
Pages not found	v2.0.0	PrestaShop	Adds a tab to the Stats dashboard, showing the pages requested by your visitors that have not been found. ... Read More	DISABLE
Visitors online	v2.0.2	PrestaShop	Adds a list of customers and visitors who are currently online to the Stats dashboard. Read More	DISABLE
Customer accounts	v2.0.0	PrestaShop	Adds a registration progress tab to the Stats dashboard. Read More	DISABLE
PrestaShop Cleaner	v2.0.0	PrestaShop	Check and fix functional integrity constraints and remove default data Read More	CONFIGURE
Best customers	v2.0.1	PrestaShop	Adds a list of the best customers to the Stats dashboard. Read More	DISABLE
Data mining for statistics	v2.0.0	PrestaShop	This module must be enabled if you want to use statistics. Read More	CONFIGURE

For module configuration, you only have to execute the options provided in a single configuration window:

1

2

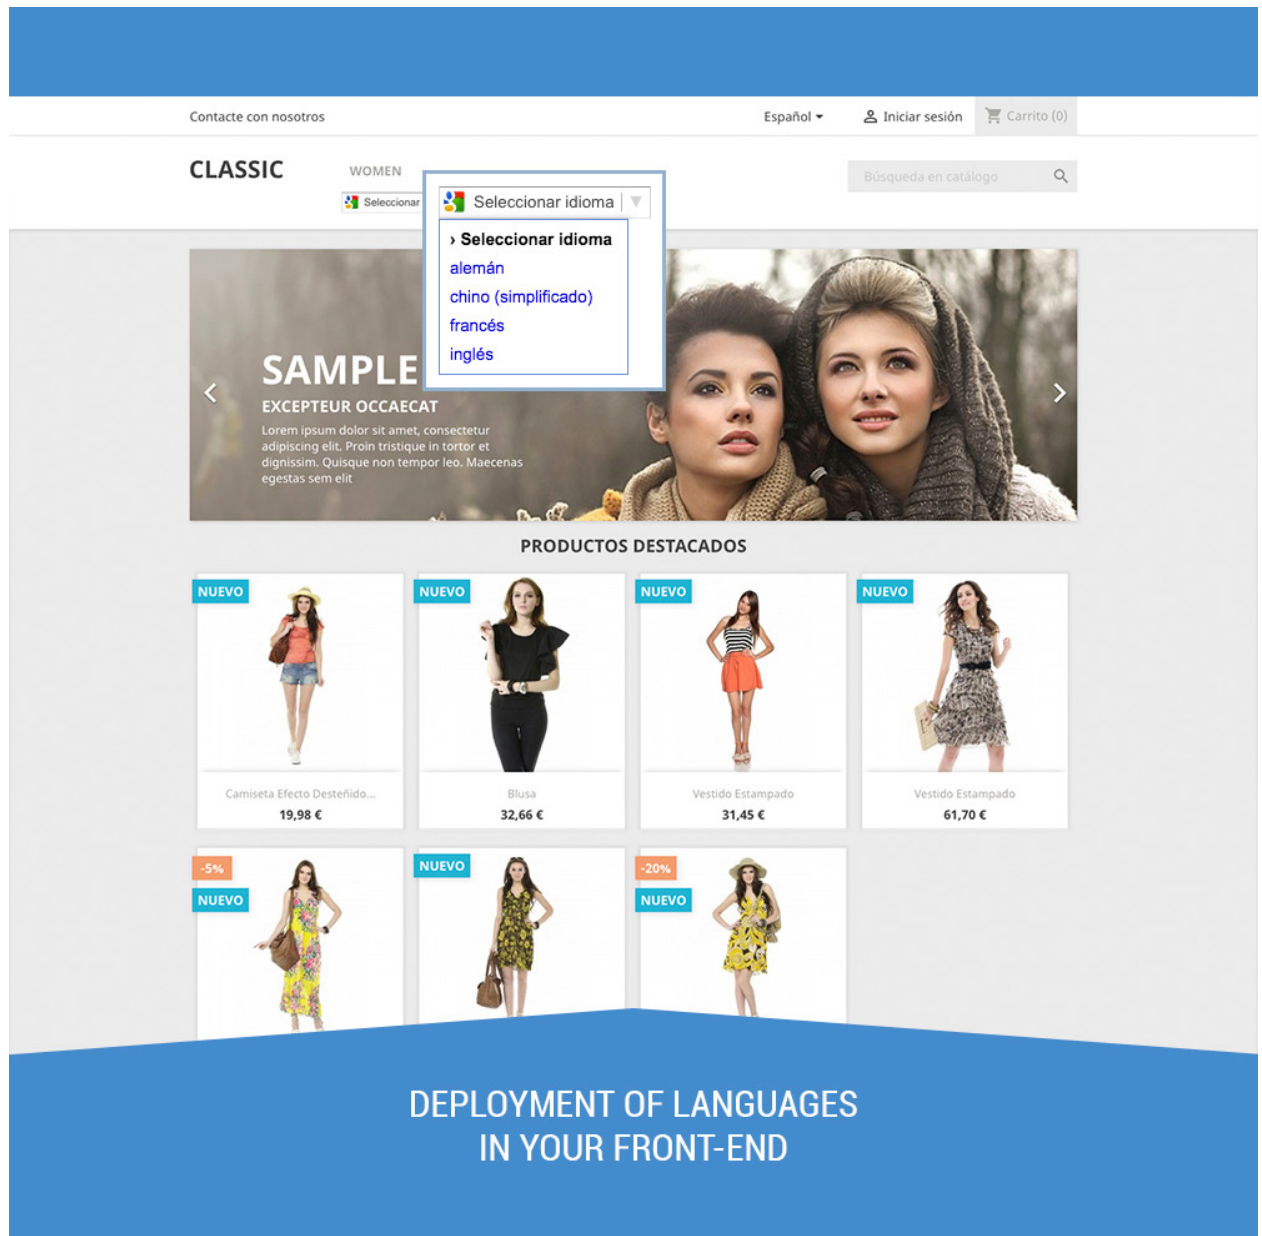

3

4

**SELECTING LANGUAGES YOU WANT
HAVE AVAILABLE IN YOUR STORE**

1. Select individually the languages you want in your store.
2. You can select them all at once.
3. It is also possible to unselect all those you have already marked.
4. When you have made the desired language selection, press "Update". You can always change the language selection repeating this process.

Once you have selected your languages, you will be able to see how they are available within a language drop-down that has been generated on your front-end, specifically at the top or the side menu. If you select one of the languages, the contents of your store will be translated instantly.

DEPLOYMENT OF LANGUAGES IN YOUR FRONT-END

Notes to developers

This module does not modify any driver not involved in any critical process Prestashop.
